

Quick manual of Registration to the AO System

March 2026

This manual describes the way of registration to the Astromaterials Sample AO system. All proposers need registration to the AO system as a notice of intent (NOI) before proposal submission.

If you have further questions about using the AO system, please contact the AO administration office (JAXA-curation-ao@jaxa.jp).

As shown in the workflow (Figure 1), the registration* process differs between personnel who already have an account from the previous AO and those who are applying to the AO for the first time.

*Registration is required for "Notice of Intent (NOI)" which is a declaration of your intent to attend the AO campaign.
