Guide for Poster Presentations

There are two ways to publish poster presentations, via Slack and Zoom Breakout Rooms. Poster presentations will be assigned their own Slack channels and Zoom Breakout Room.

Slack

In Slack, you can chat and see questions and answers at any time. Please refer to "manual_slack_hayabusa2021.pdf" for how to post on Slack.

Please make sure not to upload sensitive data to the Slack channel. If you do not want your presentation materials to be uploaded or discussed in non-real time, please choose to present via Breakout Rooms.
